3. Provide a rationale for deleting program.

This certificate is being deleted from the Family and Consumer Sciences Program and added to a new Masters in Nutrition program. The certificate in nutrition, rather than the more general Family and Consumer Sciences, will be more visible to potential students and make graduates more competitive for jobs in their respective subfields within nutrition.

4. Describe the expected effect of the proposed program deletion on existing campus programs.

We do not anticipate any effects on other programs as this sequence will still exist and in the same department. It is just moving programs.

5. What arrangements will be made for program faculty and students?

No arrangements are necessary.

6. What is the anticipated budget effect?

There are no anticipated budget effects.

7. No Did this program previously count towards teacher education?
