

# Major/Minor/Certificate (Plan) Information

**Program Code**

ECOBA

**Short Title**

Economics

**Long title (as much of full title as possible)**

Economics BA

**Are you requesting a TITLE change to an existing major, sequence, minor or certificate?**

No

If requesting a title change(s), provide the CURRENT and NEW titles, and an itemization of costs expected to be incurred by the department/school, college, or university if the proposed change(s) is approved.

-

**Did a majority of your faculty approve this title change?**

No

**Are you requesting to add a NEW Sequence to an existing major?**

Yes

**Brief rationale for requested change(s).**

The B.A. in Economics program seeks to create two accelerated sequences that allow qualified undergraduate economics majors to earn a master's degree in applied economics or an MBA degree by earning up to 12 hours of graduate credit in their senior year and completing their graduate degree requirements with only one year of additional enrollment at the University. The two accelerated sequences provide access to our department graduate program in Applied Economics and the MBA program, which is a cross-college collaboration between the College of Arts and Sciences (CAS) and the College of Business (COB) to support students who want to receive training in economics and learn about the business world through an MBA degree.

The accelerated sequences in economics offer students the advantage of completing their education in a shorter timeframe, allowing them to enter the workforce more quickly and reduce overall costs. By condensing the traditional six-year path into five, students can save a full year of tuition and living expenses. This accelerated entry into the workforce translates into earlier career progression and a quicker return on their educational investment. Moreover, the graduate programs provide focused, practical learning that equips students with skills directly relevant to real-world problems and in demand by diverse sectors (e.g., consulting, finance, data analytics, public policy), enhancing their competitiveness in the job market. The new accelerated sequences enable students to efficiently progress through both degrees, jump-starting their professional development by completing two degrees in a shorter timeframe, which leads to a higher earning potential.

The new sequences are part of the department's recruitment strategies to increase enrollment in the undergraduate and graduate economics programs and contribute to the university's efforts to recruit and retain high-achieving students. The decreased time commitment and associated costs are expected to significantly increase the recruitment of domestic students into our graduate program (which is currently heavily represented by international students). This includes attracting individuals who might not otherwise pursue graduate studies due to their reluctance to spend two additional years outside the labor market, thereby expanding our pool of potential master's candidates. At the same time, business and statistics are two fields that our students select to double major in with economics (for example, among our current economics students, 20% double major in economics and a COB degree, and 10% double major in economics and statistics). These accelerated sequences will also benefit undergraduate students who graduate in December by starting their graduate studies in the following spring semester and still earn a bachelor's and a master's degree in five years, as both the Economics and the MBA graduate programs have fall and spring admission periods (that way, students do not need to wait until fall to start their graduate studies).

Due to the lower number of credit hours required by our program (35-41 credit hours), we can accommodate students who wish to double major in these fields, allowing them to complete all the requirements within the designated four-year period and proceed with an additional year for the M.A., M.S. in Applied Economics, or an MBA. Students in the accelerated sequence will complete two graduate-level core economics courses and two economics 400-level elective courses in each semester of their senior year, if interested in the M.A., M.S. in Applied Economics. For students interested in the MBA program, the Department of Economics and the College of Business have identified seven courses that undergraduate students could take to meet this requirement, spanning courses that focus on industrial organization and game theory (ECO 420, 422, 423) and courses on public and international finance (ECO 444, 445, 446, 450). These students will complete two graduate-level courses in each semester of their senior year (ECO 422 as a substitute for MBA 411 and three ECO 400-level courses). Conditional on being admitted to the graduate program and completing the graduate program requirements, students will complete 21 additional hours in their graduate year to earn their M.A., M.S. in Applied Economics degree. Similarly, students interested in an MBA degree would complete 24 additional hours (four courses per semester) during their graduate year. This structure would result in a 4+1 program, where students earn a B.A. in Economics and an M.A., M.S. in Applied Economics, or an MBA degree.

Finally, the department's consideration of adopting a more HyFlex structure for our master's program (which would allow us to serve both international graduate students who have specific requirements for in-person instruction and domestic students who might want to enter the labor market immediately after graduation but also want to complete a graduate degree) would make these accelerated sequences even more attractive.

The changes shown under the existing General Economics and Managerial Economics sequences are due to the transition to the new curriculum system (e.g., adding the plans of study from the old to the new

system, and mirroring the language with the new sequences).

**Program Long Description / Plan Prospectus**

-

**Program Type**

Major

**Degree Designation**

BA - Bachelor of Arts

**Career (acadCareer) (Empty for majors and certificates)**

**Academic Program**

**Catalog Short Description (max of 500 characters with spaces)**

High-achieving students with a cumulative GPA of 3.20 or higher may apply to the accelerated sequence one year prior to completing their undergraduate degree. This sequence allows students to enroll in up to 12 hours of approved graduate courses that will count toward both the undergraduate program in Economics (B.A.) and the graduate program in Applied Economics (M.A., M.S.). Students can then apply to the Applied Economics graduate program in the semester when they graduate from their bachelor's program. Enrollment in the Applied Economics Accelerated Sequence does not guarantee final admission into the M.A., M.S. in Applied Economics program. For additional information on minimum requirements for admission, the application process, and selection criteria, visit <https://illinoisstate.edu/academics/majors/> and consult with the Economics Program advisor.

# Requirements

## Simple Requisites

### Sequences (subplans)

#### General Economics Sequence - 35 Minimum Required Hours

##### Type

Completion Requirement

##### Required courses

-

##### Complete ALL of the following Courses:

- ECO101 - Principles Of Microeconomics
- ECO102 - Principles Of Macroeconomics
- ECO238 - Using Regression & Econometric Methods
- ECO240 - Intermediate Microeconomic Theory
- ECO241 - Intermediate Macroeconomic Theory
- ECO300 - Senior Project
- MAT121 - Applied Calculus  
OR MAT145 - Calculus I
- ECO138 - Economic Reasoning Using Statistics  
OR MGT100 - Statistical Reasoning  
OR MAT252 - Introduction to Statistics with Applications  
OR MAT351 - Statistics And Data Analysis

-

##### Economics major electives

-

##### Complete 4 additional senior college general Economics electives

At least one elective must be at the 300-level to be taken concurrently with ECO 300. Please consult your academic advisor.

A grade of C or better must be earned in each of the required courses.

A minimum of 15 senior hours in Economics courses must be completed at Illinois State University. The Department Chairperson may grant exemptions to students whose cumulative GPA is 3.00 or higher.

**Managerial Economics Sequence - 47 Minimum Required Hours****Type**

Completion Requirement

**Required courses**

-

**Complete ALL of the following Courses:**

- ECO101 - Principles Of Microeconomics
- ECO102 - Principles Of Macroeconomics
- ECO215 - Money And Banking
- ECO238 - Using Regression & Econometric Methods
- ECO239 - Managerial Economics
- ECO240 - Intermediate Microeconomic Theory
- ECO241 - Intermediate Macroeconomic Theory
- ECO300 - Senior Project
- ACC131 - Financial Accounting
- ACC132 - Managerial Accounting
- FIL190 - Finance Fundamentals and Career Choices  
OR FIL240 - Business Finance
- IT150 - Using Microcomputer Productivity Tools
- MAT121 - Applied Calculus  
OR MAT145 - Calculus I
- ECO138 - Economic Reasoning Using Statistics  
OR MGT100 - Statistical Reasoning  
OR MAT252 - Introduction to Statistics with Applications  
OR MAT351 - Statistics And Data Analysis

-

**Complete 1 of the following**

-

**Complete at least 1 of the following courses:**

- ECO320 - Industrial Organization
- ECO322 - Competition and Managerial Strategies
- ECO324 - Economics Of Human Resources
- ECO334 - Economics Of Regulation And Antitrust
- ECO345 - International Trade
- ECO346 - International Finance

Please consult your academic advisor. Course to be completed concurrently with ECO 300.

**Economics elective**

-

**Compete 1 additional 200 or 300-level Economics elective or MGT 220.**

A grade of C or better must be earned in each of the required courses.

A minimum of 2.5 GPA in the required courses in the sequence.

A minimum of 15 senior hours in Economics courses must be completed at Illinois State University. The Department Chairperson may grant exemptions to students whose cumulative GPA is 3.00 or higher.

**Applied Economics Accelerated Sequence - 35 Minimum Required Hours****Type**

Completion Requirement

**Required courses**

-

**Complete ALL of the following Courses:**

- ECO101 - Principles Of Microeconomics
- ECO102 - Principles Of Macroeconomics
- ECO138 - Economic Reasoning Using Statistics
- OR MGT100 - Statistical Reasoning
- OR MAT252 - Introduction to Statistics with Applications
- OR MAT351 - Statistics And Data Analysis
- ECO238 - Using Regression & Econometric Methods
- ECO240 - Intermediate Microeconomic Theory
- ECO241 - Intermediate Macroeconomic Theory
- ECO300 - Senior Project
- MAT121 - Applied Calculus
- OR MAT145 - Calculus I

-

**Complete one (1) of the following**

-

**Complete ANY of the following Courses:**

- ECO320 - Industrial Organization  
OR ECO420 - Industrial Organization
- ECO322 - Competition and Managerial Strategies  
OR ECO422 - Competition and Managerial Strategies
- ECO324 - Economics Of Human Resources  
OR ECO424 - Economics of Human Resources
- ECO334 - Economics Of Regulation And Antitrust  
OR ECO434 - Economics of Regulation and Antitrust
- ECO345 - International Trade
- ECO346 - International Finance  
OR ECO446 - International Finance
- ECO350 - Public Finance  
OR ECO450 - Public Finance
- ECO355 - Health Economics & Policy  
OR ECO455 - Health Economics & Policy

ECO 300 must be completed concurrently with one of these 300/400-level ECO courses.

#### Elective courses

-

#### Earn at least 9 credits from the following:

- ECO202 - Current Economic Issues
- ECO215 - Money And Banking
- ECO220 - Law And Economics
- ECO225 - Labor Economics And Labor Problems
- ECO236 - Economics Of Energy & Public Policy
- ECO239 - Managerial Economics
- ECO245 - The International Economy
- ECO250 - Public Economics
- ECO255 - Introduction To Environmental & Natural Resource Economy
- ECO320 - Industrial Organization  
OR ECO420 - Industrial Organization
- ECO322 - Competition and Managerial Strategies  
OR ECO422 - Competition and Managerial Strategies
- ECO324 - Economics Of Human Resources  
OR ECO424 - Economics of Human Resources
- ECO334 - Economics Of Regulation And Antitrust  
OR ECO434 - Economics of Regulation and Antitrust
- ECO345 - International Trade
- ECO346 - International Finance

**OR** ECO446 - International Finance

- ECO350 - Public Finance
- OR** ECO450 - Public Finance
- ECO355 - Health Economics & Policy
- OR** ECO455 - Health Economics & Policy
- ECO406 - Local Economic Development
- ECO423 - Games And Strategies
- ECO425 - Advanced Labor Economics
- ECO435 - Public Utility Economics
- ECO436 - Seminar In Regulatory Policy
- ECO437 - Fundamentals Of Econometrics
- ECO438 - Microeconometrics
- ECO439 - Applied Time Series Econometrics And Forecasting
- ECO440 - Advanced Microeconomic Theory I
- ECO441 - Advanced Macroeconomic Theory I
- ECO444 - Financial Economics
- ECO445 - International Economic Analysis
- ECO490 - Seminar In Economics

Complete at least one 400-level course.

**Additional Comments:**

- A grade of C or better must be earned in each of the required courses.
- A minimum of 15 senior hours in Economics courses must be completed at Illinois State University. The Department Chairperson may grant exemptions to students with a cumulative GPA of 3.00 or higher.
- To graduate in this sequence, a student must take at least one graduate-level course during their senior year.
- A maximum of 12 credit hours may be taken for graduate credit.
- Recommended graduate-level courses that will count for both the undergraduate and the graduate program: ECO 437 and ECO 438, and any additional ECO 400-level courses (excluding ECO 400 and ECO 498).
- The student must consult with their economics advisor prior to the start of each new course to ensure approval.
- Enrollment in the accelerated sequence does not guarantee admission to the M.A., M.S. in Applied Economics graduate program.

**Economics/MBA Accelerated Sequence - 41 Minimum Required Hours****Type**

Completion Requirement

**Required courses**

-

**Complete ALL of the following Courses:**

OR ECO446 - International Finance
- ECO350 - Public Finance  
OR ECO450 - Public Finance
- ECO423 - Games And Strategies
- ECO444 - Financial Economics
- ECO445 - International Economic Analysis

Complete at least one 400-level course.

**Additional Comments:**

- A grade of C or better must be earned in each of the required courses.
- A minimum of 15 senior hours in Economics courses must be completed at Illinois State University. The Department Chairperson may grant exemptions to students with a cumulative GPA of 3.00 or higher.
- To graduate in this sequence, a student must take at least one graduate-level course during their senior year.
- A maximum of 12 credit hours may be taken for graduate credit.
- Recommended graduate-level courses that will count for both the undergraduate and the graduate program: ECO 422, and any of ECO 420, ECO 423, ECO 444, ECO 445, ECO 446, and ECO 450.
- ECO 422 can be taken in place of MBA 411 to meet graduation requirements in the MBA program.
- Students without a sufficient academic background in one or more business areas should

expect to complete some pre-MBA Program courses if admitted to the MBA program. Recommended university-wide electives to obtain this background include ACC 131, ACC 132, FIL 185, FIL 190 (or FIL 240), MGT 220, and MKT 230.

- The student must consult with the economics advisor prior to the start of each new course to ensure approval.
- Enrollment in the accelerated sequence does not guarantee final admission into the Business Administration (MBA) graduate program.

# Sample Plans of Study (Degree Maps)

**Degree Map Name**

Applied Economics Accelerated

**Total Degree Map Credits**

120 - 123

**Degree Map Narrative**

The requirements below pertain to this Undergraduate Catalog year only. The following is intended as a guide for academic planning, showing how a student may complete all requirements within the timeline indicated, including the order in which some courses should/must be taken. Students should consult with their academic advisor to discuss their individual plan of study.

A minimum of 120 total credit hours is required, including 40 senior-level hours (200-300 level courses).

In addition to completing major requirements, students must complete:

- General Education requirements (refer to the General Education Requirements page in this catalog for alternative options for transfer students)
- One course for the AMALI graduation requirement
- One course for the IDEAS graduation requirement
- Specific degree type requirements (Bachelor of Arts or Bachelor of Science)
- Some courses may satisfy a major requirement and one of the requirements noted above.

To graduate in the accelerated sequence, a student must take at least one course for graduate credit.

**Degree Map Narrative**

The requirements below pertain to this Undergraduate Catalog year only. The following is intended as a guide for academic planning, showing how a student may complete all requirements within the timeline indicated, including the order in which some courses should/must be taken. Students should consult with their academic advisor to discuss their individual plan of study.

A minimum of 120 total credit hours is required, including 40 senior-level hours (200-300 level courses).

In addition to completing major requirements, students must complete:

- General Education requirements (refer to the General Education Requirements page in this catalog for alternative options for transfer students)
- One course for the AMALI graduation requirement
- One course for the IDEAS graduation requirement
- Specific degree type requirements (Bachelor of Arts or Bachelor of Science)
- Some courses may satisfy a major requirement and one of the requirements noted above.

To graduate in the accelerated sequence, a student must take at least one course for graduate credit.

## Coursedog Only Catalog Fields

### Catalog Display Name

Economics - Bachelor of Arts

### Catalog Short Description

Economics is the study of how to critically evaluate problems and make well-reasoned decisions. As such, the Economics major is particularly well suited to prepare you for the career challenges you will face in the twenty-first century by helping you develop important skills, including the ability to apply a general framework of analysis for solving "real-world" problems, conduct mathematical and statistical analysis, work with data to address specific issues, and effectively communicate, in written and oral form, with others.
