Major

Degree Designation - If this major offers multiple degree types, a proposal for each is required

MA - Master of Arts

Provide a rationale for inactivating the major and/or any associated sequences, minor or certificate.

Our program is set up to offer a MS degree. Based on historical knowledge we have not offered/awarded an MA degree in over 30 years. Thus, it seems like this degree designation should be deleted as option.

We have just submitted a program revision for our MS program which is the degree we offer.
